COUGHS, COLDS. HOARSENESS, BRONCHITIS WHOOPING-COUGH, CROUP, ASTHMA and CONSUMPTION

Among the numerous discoveries Science has made in this generation to facilitate the business of life, increase its enoyment, and even prolong the term of human existence, none can be named of more real value to manking than this contri-bution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt that no medicine or combination of medicines yet known can so surely control and cure the numerons varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures affected by its use, but we would present the following opinions of eminent men, and refer further enquiry to the circular which the Agent below name I will always be pleased to furnish free, wherein are full particulars and indisputable proof of these facts. From the President of Amherst College, the celebra-

From one of the first Physicians in Maine. Dr. J. C. Ayer, Lowell -Dear Sir: I am now constant using your Cherry Pectoral in my practice, and prefer it to any other medicine for pulmonary complaints. From obser-vation of many severe cases, I am convinced it will cure coughs, colds, and diseases of the lungs, that have put to defiance all other remedies.

I invariably recommend its use in cases of consumption, and consider it much the best remedy known for that disease, Respectfully yours,
